

**Sonora SIRS # 136 RV Club
Rovin' Roosters & Chicks**

**May 2017 Newsletter
Happy RVing**

Once again, the RV's ventured out and surprise, it was not raining. They all met at Vacaville for an outing hosted by Chuck and Kathie Price & Paul and Annelies Squeri. The weather was warm and mild. A relaxing agenda was planned with a visit to the Jelly Belly factory, the Budweiser brewery, Fenton's Creamery, Factory outlets and misc. items like putting a 1000-piece puzzle together. The ladies also had a hobby project planned while the men went to the Travis Air Force Base Air Museum. Much was discussed about the upcoming trip to Hat Creek in June with a stopover in Corning. It appears we will have at least 20 rigs going. It was great to see Jim Johnson up and about again. Others in our group that have been having health problem are finally on the mend.

Our trip to the Budweiser Brewery in Fairfield.

We just couldn't drink enough to keep up!

Bill & Peggy Guenza with an AT-6.

This is "The Fat Man" the bomb that destroyed Nagasaki.
